## Description

---

The University System of New Hampshire, representing the University of New Hampshire, is soliciting Requests for Proposals for Marketing Services. We aim to establish master service agreements with distinguished marketing consultants who can provide a comprehensive suite of services. Our strategic approach involves contracting with multiple vendors, each specializing in different aspects of marketing. This ensures that our marketing initiatives are both innovative and effective, leveraging industry expertise for each service category. The resulting contracts will also be made available to the member institutions (Keene State College and Plymouth State University) to utilize at their own discretion.
